DAYTONA, FLORIDA, FRIDAY, MARCH 2, 1917.

15 CENTS A WEEK, DELIVERED

COMPLAINTS AGAINST SEVERAL OFFICIALS MADE TO GOVERNOR

TWO DUVAL COUNTY OFFICIALS INVOLVED

TALLAHASSEE, March 2.—The governor is having his hands full just now receiving complaints against county officials here and there over the state. A delegation from Hamilton county appeared before Mr. Catts early in the week in relation to complaints against County Judge B. B. Johnson, of Hamilton. Part of the delegation recited alleged grievances, others defending Judge Johnson. No decision was announced.

It is understood that charges have been filed with the governor against Sheriff Dowling and Solicitor Howell, of Duval county, the nature of which has not been made public here.

It is known that representatives of the governor spent several days in Jacksonville recently looking into the enforcement of the law as applicable to the operation of clubs. Quite a number of policemen as well as citizens were required to give testimony which will be submitted to Governor Catts.

FEATURE PICTURE**AT CRYSTAL THEATRE**

Renner & Williams company has secured for the automobile owners in Daytona the motion pictures on the Knight sleeve valve motor, which have been exhibited in Chicago, Boston, Indianapolis, Pittsburgh, and other automobile centers. The pictures will be shown at the Crystal theatre, March 5. The pictures are not technical, said a member of the firm of Renner & Williams, "nor were they made from an engineering standpoint. They are for automobile owners and tell in the language of the layman the history of the sleeve valve motor, its progress in Europe and in this country, and wherein it differs from the automobile motor as the average motorist knows it."

For some time, we have been trying to secure this attraction for Daytona. The Williams-Overland company, through years of association with Knight motor interests have come to be regarded as experts on this subject, and as a result wherever the pictures have been exhibited, the audience has been enthusiastic.

"In Europe every automobile owner knows the Knight motor just as thoroughly as he knows a Ford," said one of the motor men here. "In America the motor is not so well known. For this reason it has been deemed advisable to place before the owners the real truth regarding what is known as the greatest advance in an automobile design in the last ten years."

FOUND TRAVEL SOUTHWARD

S. U. Archibald returned Wednesday evening from a business trip of several weeks to New York, and stated that travel southward is still as heavy as he had difficulty in securing the reservations he desired. Mr. Archibald is in New York principally in connection with an exhibition of the Ford 1917 Preserving company's products in the Annual Salon of the Automobile Club in the Grand Central Palace, New York, 21st to 26th. The exhibition of Ford's 1917 Florida Products, received a very flattering mention in the New York Hotel Review of Saturday, February 24th.

People Are Sure Talking About Us

Les Darcy Cannot Fight in New York Because He is a Slacker, Says Gov. Whitman

NEW YORK, March 2.—Governor Whitman directed that the State Athletic commission prohibit the scheduled bout on next Monday between Les Darcy and Jack Dillon on the ground that Darcy is a "slacker."

Darcy recently arrived from Australia, where he not only defeated all the local fighters in his class, but also triumphed the crop of fighting Americans who saw fit to travel to the Antipodes, including Eddie McGearty, of Oshkosh.

What effect the decision of Gov. Whitman will have on the activities of Light Weight Champion Freddie

Welch is not known. Welch is a "slacker" of the first water. When Bombardier Wells joined the colors, Welch took a boat for America, where he has been fighting in the squared circle, frequently appearing in New York. Welch likes the smell of rosin, but dislikes the smell of gunpowder. Darcy is also in the same class. They want to fight for the money where nothing more than the championship is at stake. The idea of fighting where life and limb may be the forfeit is foreign to their nature and Gov. Whitman has probably taken the right course.

FOUR MEMBERS OF YARROWDALE CREW HAVE BEEN RELEASED

COPENHAGEN, March 2.—Four Americans from the steamer Yarrowdale, who have been prisoners in Germany during the last three months, arrived here. They are Dr. John Davis, of Columbus, Miss.; Philip M. Kim, of Worcester, N. Y.; Dr. H. D. Snyder, of Norfolk, and Richard K. Smith, of New York. The four were released by the German government after they had been held in the Yarrowdale, which was captured by the German navy in the North Sea in the autumn of 1916.

STRATEGY IN WAR HAS NOT CHANGED

LONDON, March 2.—General Frederick B. Maurice, director of military operations for the Imperial staff, declared that war strategy is still the same as it was in the time of Napoleon and Lee. He said, "Men in trenches who see little are inclined to think the major principles of war have changed, but only the tactics have changed. Napoleon said that tactics changed every ten years." General Maurice, who is an authority on military history, and a biographer of Lee, believed that the war will last another winter.

EMPEROR WILLIAM HAS SEVERE CHILL

BERLIN, March 2.—An official statement from the German government today said that Emperor William had a severe chill.

NAVAL COMMITTEE IN UPPER HOUSE AMENDS THE BILL

WASHINGTON, March 2.—The Senate approved the action of the naval committee eliminating the provision of the naval bill, admitting it to "be the policy to adjust and settle all international disputes through mediation and arbitration to the end that war may be honorably avoided." This was put in the bill by Minority Leader Mann in the House.

WAR SUMMARY

It is officially announced that the Turkish forces, retreating before the British on the Tigris front, passed through Aziziyah, 52 miles north of Kut-el-Amara.

The British claim the capture of 7,000 prisoners since December. Berlin reports the repulse of British attacks east and southeast of Souchez on the French front, and the failure of the Russians to retake positions near Valpurga, on the northern Rumanian front, recently captured by the Teutons. Reports say that the Russians stormed the positions five times, while Petrograd says that the battle continues.

Mr. and Mrs. L. M. Linway, of St. Augustine, and Mrs. F. C. Long, of Washington, drove down from St. Augustine yesterday for lunch at the Police Garage hotel.

ONE-TENTH OF WORLD'S SHIPPING DESTROYED SINCE ADVENT OF WAR

NEW YORK, March 2.—According to the journal's statistics, one-tenth of the world's non-military shipping has been destroyed since the war began. Statistics of record show that a total of 2,473 vessels, or 4,411,000 gross tons, more than half of which were owned by Great Britain.

STRICKEN AFTER A VISIT TO FRIEND

C. O. Chamberlin, one of the pioneer hotel men of Daytona and a regular winter visitor for more than a score of years, died about noon today at a local hotel, very suddenly, and immediately upon his return from a visit to Raymond Hall, who is indisposed at a local sanatorium. The immediate cause of death is attributed to heart failure. Dr. E. C. Atwood, a local physician, and Dr. D. A. Harris, of White-stone, L. I., who happened to be sojourning at the same hostelry as the deceased, were the attending physicians and their united efforts to prolong Mr. Chamberlin's life were unavailing.

Mr. Chamberlin has not been in particularly good health for the past several years and during the early fall visited a sanatorium at one of the famous health resorts of the country in the hope of being benefited. During his visit here this season Mr. Chamberlin was, as usual, accompanied by his sister, Mrs. R. A. Gordon, who was with him at the time of his death.

Mr. Chamberlin was born at Win-hall, Vermont, September 15, 1849. At one time he was manager of the old St. James Hotel of Jacksonville for about 15 years.

Mr. Chamberlin's northern home is at Brattleboro, Vermont, and relatives there have been notified by wire of his sudden demise.

Mr. Chamberlin was widely known in hotel circles and had a host of friends and acquaintances throughout the country. He for many years owned and conducted the Palmetto hotel on South Beach street, the first of Daytona's hostleries, disposing of the property four years ago, since which time he has made the Despland hotel his headquarters during the winter season.

Mr. Chamberlin has for years conducted the Adirondack Inn at Sacandaga Park, N. Y., one of the most popular summer resort hotels of the East. There, as here and everywhere, that he was known, his genial disposition and unflinching good humor made him a most delectable companion and won him scores of friends to whom his death will bring sincere sorrow.

The Burdick & Moley company has taken charge of the remains and it is probable that the body will be placed in the retaining vault in Pinewood cemetery, Daytona Beach, until spring, owing to the fact that because of Mrs. Gordon's state of health, it would be unwise for her to go north at this time.

WILL DEMONSTRATE THE SUPERIORITY OF FLORIDA

Mrs. J. L. B. Queen, of Beltry, Fla., came to Daytona with her sister, Mrs. J. B. Queen, of Beltry, O., and spent some time here with Mrs. Queen, who is a native of the Beltry, O. Mrs. Queen, who has been in the city in support of the cause of Florida citrus fruits, is a devotee of all Florida and wrote to Mrs. J. L. B. Queen for specimens of Florida oranges and lemons, and to Mrs. J. L. B. Queen for specimens of Florida lemons and oranges. Mrs. J. L. B. CLARENDON POPULAR WITH INDIANAPOLIS COLONY THIS SEASON

An still they come! Those Indianapolis people. So popular is the Clarendon with the Indianapolis contingent this season, one wonders if that city is not as socially deserted at present as the Sahara desert. The congenial colony from the leading city of the Hoosier state is one of the gayest at the hotel and the members are engaged in a continual round of pleasures, including motor trips, bathing, golfing and picnic parties. Late additions are Mrs. John Newley, Miss Emma Henry, A. C. Newley and C. S. Mathews, who are touring the state by automobile. Other prominent guests within the past week have been Mrs. H. Munk, Mrs. Hervey Bates, Jr., Miss Merendale, Mr. and Mrs. H. R. Buckwall and Mrs. Howard Schumann. Many other Indianapolis people are expected for the month of March at the hotel.

S. M. Bond and Miss Bond, who were guests at the Clarendon last year, arrived last night, coming direct from Cleveland, Ohio. The two are being cordially welcomed by many friends at the hotel.

Horseback riding was popular with the Clarendon colony yesterday. Among those noted on the trails and beach were Mrs. E. Virgil Neal and Mrs. M. F. Pratt, who rode together, and Miss Annette Taussig, who rode with Mr. Owens.

A Detroit four who are guests at the Hotel Clarendon for a stay of some length are Dr. and Mrs. J. F. Conley and Mr. and Mrs. H. E. Marshall.

It will be good news to the many who are interested in Edward Orting, the Clarendon violinist, who nearly lost his life in a brave attempt to save another from drowning, to learn that he is rapidly recovering and is considered out of danger. Mr. Orting has been moved from the hospital to the musicians' cottage.

The Lotus grill was gay with a number of informal dinner parties Wednesday night. Among those who entertained were Mr. and Mrs. Mortimer B. Fuller, who had five guests, and Mr. and Mrs. F. N. Conrad.

Mr. and Mrs. Cameron MacRae, of Concord, N. C., are interesting guests at the Clarendon, where they expect to spend the next week.

Deserting the west coast to spend some time in Seabreeze are Mr. and Mrs. H. W. Nuckles, of New York City, and A. N. Belding and F. N. Belding, of Rockville, Conn., who are late guests at the Clarendon. The four are traveling by automobile.

Mr. and Mrs. J. J. Eldridge, of Boston, Mass., came up from Palm Beach Wednesday to spend several days at the Clarendon en route north. On their way south during January the Eldridges were guests at the hotel for a fortnight.

Leaving yesterday for the north were Mrs. A. Murphy and brother, W. J. Moxley, of Chicago, Ill., who have been guests of the Clarendon since the middle of January.

An informal luncheon was given at the Clarendon Wednesday by Mr. and

Mrs. H. Mendelsohn, of Newburgh, N. Y., whose guests were Miss Courtney, Miss Sholtz and David Sholtz, of Daytona.

Mr. and Mrs. J. L. Kendall, Miss Mary Kendall and Miss Kathryn Kendall, of Pittsburgh, Pa., guests at the Clarendon for a several days stay, will spend today on a motor trip to Winter Park.

Leaving yesterday for Birmingham, Ala., after a sojourn of some length at the Clarendon were Mr. and Mrs. C. H. Nabb and Mrs. E. C. Phillips. Coming to Florida early in January the trio toured the state in the Phillips' car, making the Clarendon their headquarters.

Walter Slack and nephew, Leon Slack, who were among the most inveterate golfers at the Clarendon, have returned to Trenton, N. J. The two were popular members of the hotel colony and will be greatly missed. Willard Slack will remain in Seabreeze for several weeks longer with friends.

Sugar's History.
The beginning of sugar's history is lost in the mists of antiquity. It has been known since the dawn of history, but not in all countries, and the Chinese appear to have delighted their palates with some sort of sugar for more than three thousand years. It was known in India earlier than in Europe, being made from a juicy reed or cane. One of the generals of Alexander the Great is said to have carried sugar to Greece in the year 325 B. C., as Sir Walter Raleigh, some two thousand years later, carried tobacco from Virginia to England. But even as late as A. D. 159 sugar was still a rarity in Greece. The famous physician, Galien, used it as a remedy for certain maladies. The invention of the first process for refining sugar is ascribed to the Arabs, and a Venetian merchant is said to have purchased the secret from them and introduced the process into Sicily. The refining of sugar was first practiced in England about 1650.

Invention of Importance.
Coagulation is the invention of the great Swiss surgeon, Professor Kocher. It is in the form of a powder which, before use, is mixed with water. Applied to a wound, it almost instantly coagulates the blood and stops the bleeding, whether external or internal. It shortens surgical operations and makes them less dangerous. The French medical headquarters speak most highly of coagulation. It will, no doubt, come into general use in all surgical operations.

LOSE ONE DOLLAR TO WIN ONE KISS

Boston.—The Harvard Lampoon has discovered a way to cut down the high price of kissing. Snacks can be had at \$1 per, if a formula evolved at Harvard is followed. It is easier than rolling off a log, and much more pleasant, according to late reports.

Here's the scenario, clipped from the Harvard Lampoon:
"First select a girl (a pretty one), then bet her a dollar that you can kiss her without touching her. [This sounds impossible and will appeal to her sporting blood.]
"Next kiss her and pay the dollar like a good loser."
Who wins?

TRACTOR HEATS THIS HOTEL

Odd Use for the Shambling Engine of the Fields in Carlisle (Pa.) Hostelry.

Carlisle, Pa.—What is believed to be the most novel and satisfactory solution of furnace trouble is seen in the heating of the Cumberland hotel here with an outside traction engine. When the steam heating plant "went on a strike" the guests of the hotel suffered no inconvenience, according to the statement of the owner, W. B. Kline, because a steam traction engine was steered to the side of the hotel and pipes attached to the steam pipes in the building and the problem was solved.

The entire building's 30 rooms have regular heat now, and the furnace can be repaired without interruption.

Proprietor Kline says if the engine were a permanent fixture and not unsightly, outside of hiring an extra man for engineer, he'd as soon have it as a furnace. He does not recommend its extended use, however, on account of the scarcity of engines in some places.

PLAN TO STOP SMUGGLING

"Honor System" to Be Given a Trial in the United States Customs Service.

San Francisco.—The "honor system" is to be given a trial in the United States customs service.

W. H. Tidwell, special agent of the treasury department, is about to appear to department stores and merchants in an effort to discourage the illegal entry into this country of cigarettes, birds of paradise feathers and other plumage prohibited importation by federal law.

Tidwell says, rare feathers are almost as plentiful as ever, despite the passage of a law several years ago excluding them from entrance. He says the law seems to have increased the demand and as a result the prohibited feathers are seen in open display in shop windows. He believes the storekeepers will cooperate in the enforcement of the law if they are properly approached. He says it is almost impossible to detect smuggling by women.

ERECT 11,000 NEW BUILDINGS

Reconstruction of Hundreds of Cities and Towns in East Prussia Progressing.

Berlin.—The reconstruction of the hundreds of cities, towns and villages in Eastern Prussia destroyed by the Russians during their invasion is progressing rapidly. An official report just published shows over 11,000 new buildings, about one-third of the number burned or blown up by the Russian troops, have been erected during the last 18 months. It is estimated it will take about four years more to remove all traces of the invasion.

The public subscriptions for the devastated districts so far have yielded about \$2,000,000 and the brick yards of the Kaiser at Chitten up to January 1 last finished building material valued at nearly \$2,000,000, but these gifts are entirely inadequate. Donations must be raised by the provincial authorities and the Prussian state.

EX-MAYOR IS SCREEN ACTOR

Former Los Angeles Executive to Depict His Sensational Career for Movies.

Los Angeles, Cal.—Charles E. Sebastian, whose sensational career carried him, within a few years, from telegrapher to mayor of Los Angeles, today is not only a "soda squire" but a motion picture actor. Sebastian resigned from office several months ago and after operating a rural grocery store for a while he became manager of a "night club" in a dance hall, where he mixes soft drinks and conducts patrons to their seats. He has now contracted to act in a feature film depicting his own life.

Thieves Returned and Finished Job.
Detroit, Mich.—Three other night thieves broke a window of a jewelry store and stole \$200 worth of watches. In telling a newspaper man about it, Sol Wolf, the manager, pointed out that if the thieves had broken the other window they would have got \$1,000 worth of jewelry. Evidently the thieves read the papers, for they came back the next night and remedied their error to the extent of \$1,000.

You Yourself Will Be the Poorest.
If you fail to do the kindly or pleasant act just had thought of, the one for whom it was meant will perhaps not know what he has missed, but will, nevertheless, be deprived of a pleasure that might have been his, while you yourself will be the poorer for your failure to carry out the kindly impulse. Exchange.

Better Than Glass Crystal.
A watch crystal is a celluloid or other equivalent elastic transparent unbreakable material which in practice is sprung into an undercut groove or rubber in the watch bezel, reduces the initial cost to the manufacturer and avoids the cost of replacing broken glass crystals by the user.

No Escape.

Absent-Minded.
Her neighbors were discussing the character of a venial woman when they happened to be in the room of a man, but a young man said it struck him that she showed great power of wisdom in the respect. MUSIC DAY AT CLUB A MARKED SUCCESS

Before a discriminating and very appreciative audience Pasquale Tallarico, world famous pianist, appeared in recital on Thursday afternoon at the Palmetto club under the direction of the Music department, which was, indeed a musical event of rare charm and sweetness. Assisting at the recital Miss Alice Briggs loaned her pleasing mezzo-soprano voice. Much sincere regret was expressed when announcement was made that Mrs. Wm. Redwood Wharton, whose name appeared on the program, would not assist because of a severe cold. Mrs. Wharton is always a great addition to any musical program, and to be unable to hear her beautiful soprano voice was very disappointing.

Boyish, with no trace of ostentation in his manner, Tallarico lifted in spirit, his listeners to rosy heights, made the desire to shut one's eyes and put into oblivion everything but the wonderful tones of his perfect harmony paramount. Thence his numbers with fine conception of tone, each selection built upon the last until perhaps the finest number of all was given, Liszt's 12th Hungarian Rhapsody. In this number the zenith of perfection was reached. 'Twas here he played on with fullest expression, illustrating his keen and sensitive fervor for this splendid composition, whose melody, unexpressed inspires, in the score where the strain runs delicately light, thrilling the soul, his execution was supreme. Tallarico won the hearts of his audience.

He responded to several encores one of which was Chopin's Valse in E flat.

ENTERTAINMENT BY PUPILS OF THE INDUSTRIAL SCHOOL

On Monday evening, March 5th, at the New Daytona theatre the pupils of the Industrial Training School for Negro Girls will give an entertainment consisting of jubilee singing and a play.

The following list of ladies, by giving their names as patronesses, attest their interest in the institution which, as well as being a school where training of heart and hand is given, the most prominent place on the curriculum, is a center of community work with many branches the most practical and appealing of which is the hospital open to all suffering negroes.

List of patronesses:

Would Doom Species.

Harold was recovering from a case of typhoid fever and the doctor said he must drink plenty of buttermilk. Harold despised buttermilk, but he bravely drank the required amount. One day when the nurse brought in an exceptionally large glass he looked at it sadly and said: "Gee, I just wish every buttermilk cow in the world was dead!"

Optimistic Thought.

Man may alter the face of Nature, but he cannot alter her laws.

TODAY'S FASHION NOTE

The vogue of the Parsley effects grows apace. They are used in the development of many of the season's most delightful formal frocks. Here is shown an afternoon creation of Parsley printed cotton cloth combined with chambrase satin. The gathered skirt is tucked, the top is being stitched with narrow bands of fringe or mar- about. Like the foundation skirt, the top features straight lines. There is a small bodice or collar mounted on a satin lining and the oval-shaped neck is finished with a collar of satin. Fancy buttons trim the long close-fitting sleeves. In medium size the dress requires four and one-quarter yards of 36-inch satin and five yards of 1-inch cotton cloth. Pictorial Review waist No. 4904, sizes 34 to 42. Price 25 cents. Skirt No. 7095. Sizes 32 to 42 inches waist. Price 25 cents. At the Peck Bonbricks company.

Value of Punctuality.

The Woman's World appeals to women generally to follow the example of business women and cultivate the virtue of punctuality. "One of the lessons," it says, "the business and working woman has learned is to be prompt. Managers of large establishments tell us that as a rule women are more punctual than men. There has been a notable improvement in the punctuality of the home, due mainly to the influence of modern business."

Serving a Purpose.

"Doesn't it make you indignant to that man next door to come out and shout at your boys for disturbing him?" "It used to," replied the placid woman, "but it doesn't any more. You have no idea how it amuses the children."
